# Godwin Paschal Mwenda

Web Developer | Data & Cyber Security | Creative Producer

godwinpaschalmwenda@gmail.com • +254 769 259 458

## PROFILE

Computer Science student at Zetech University with certified training in Data Science & Analytics and Cyber Security. I build and maintain web applications that solve real problems, and I can take a project from backend logic to a polished, user-facing product, including graphics, branding and video. Open to web development, technical management, data and creative media work.

## EXPERIENCE

**Web Developer & Platform Manager, OuterCircle** Current

- Develop and maintain the OuterCircle platform, an anonymous mental health support web app.
- Deploy new features and handle day-to-day upkeep to keep the platform available and performing well.
- Support a privacy-first user experience: no accounts, anonymous codes, and mobile-friendly installable web app.

## PROJECTS

**OuterCircle — Anonymous mental health support platform** outerrcircle.lovable.app

React, JavaScript, HTML5, CSS3, PWA. Visitors get a permanent anonymous code and can send messages with a sensitivity level to the OuterCircle team without sharing a name or account.

**DukaFlow (Scan & Sell) — Point-of-sale app for small shops** shopflow-pos-three.vercel.app

JavaScript, PWA, deployed on Vercel. Scan barcodes to build a cart, adjust quantities and check out in seconds, designed to work well on phones.

## EDUCATION & CERTIFICATIONS

**BSc in Computer Science, Zetech University** 2024 – 2027 (expected)

**Certificate in Data Science & Analytics, Zetech University** 2025

**Certificate in Cyber Security, Zetech University** 2025

## SKILLS

**Development & systems:** Web development and architecture, React, JavaScript, HTML/CSS, platform management and maintenance, deployment (Vercel), cyber security fundamentals

**Data & analytics:** Data science fundamentals, data analytics and visualization

**Creative media:** Graphic design, digital branding, video production and post-editing
